Installation: How to install Realty360SU

Very Important! If you did not get Realty360SU setup from our web page, but from
Another source such as a magazine CD or software library, file sharing networks make sure to
Visit our home page.
You'll most probably find a newer version, because we release updates about twice a month.

To install Demo Realty360SU

A) Download the Realty360SU.zip from the www.espytechnologies.in/products/
Extract the setup files from .zip folder and just run the "Realty360SU.exe"
And follow the instructions. You'll want to select the target directory and the components to install.
B) If your computer doesn't have dot.net framework V 4.0 installed then installer will detect automatically and will try to install it.
Or
Download the dotnet framework from Microsoft website link.

Espytechnologies.in | M: **+91-7087524596/97** | E: info@espytechnologies.in

"http://www.microsoft.com/en-in/download/details.aspx?id=17718" and install it
Or
Download dotnet framework from the
"https://www.dropbox.com/s/8trsqjjdtenc6xg/dotNetFx40_Full_setup.zip?dl=0" and install both dot net frameworks if your laptop doesn't have it and Realty360SU.exe.

Note: Slow net connection will take some time to refresh.
Registration: No registration procedure needed.
